GLOBAL CALL TO ACTION!

FIGHTING MALNUTRITION IN UGANDA EHERF'S APPROACH

Written By : Atusiimire
Precious

Help Save Lives in Rural Uganda

Dear Friends Around the World, Right now, thousands of children and families in rural Uganda are facing life-threatening illnesses—and they have no access to the medicines they desperately need.

Together, the **Luena Foundation** and the Enhance Health Education Research Foundation (EHERF-Uganda) are stepping up to meet this crisis. But we need your help.

At the heart of this mission is **Cornerstone Medical Centre**, a trusted community-run facility in Uganda. Every day, it serves people suffering from preventable illnesses like malaria, respiratory infections, and severe malnutrition.

These are illnesses that can be treated with low-cost medicines—but in many rural areas, families simply can't afford them. As a result, children are dying from conditions the world already knows how to prevent and treat.

The Need is Urgent

Due to overwhelming demand, Cornerstone Medical Centre is running out of medicines. Without immediate support, thousands remain at risk—and the cycle of poverty and malnutrition will only deepen.

A Community-Based Solution

EHERF-Uganda is one of the **Luena Foundation's** most trusted partners, known for:

- Providing essential **health and nutrition services**.
- Offering care through **Cornerstone Medical Centre**.
- Supporting **vulnerable populations** who have no other access to treatment.

But they cannot do it alone!.

The Silent Crisis We Must Not Ignore

Written By: **Dr. Ayesiga Gerald**

♥ **Luena Foundation has already committed \$1,500 USD to support this life-saving work—but we're calling on the global community to help us go further**

🙌 How You Can Help

Your donation—no matter how small—will:

- Restock essential medicines for children and families
- Treat preventable illnesses before they become deadly
- Support the recovery of malnourished children
- Strengthen health systems in underserved communities

A Message from the CEO, EHERF-Uganda

At EHERF-Uganda, we witness the daily impact of malnutrition on vulnerable children and families. With the support of our global partner, the [Luena Foundation](#) we are working to provide life-saving care where it's needed most. But we can't do it alone.

Your support can help us reach more lives, restore health, and bring hope to those in need.

 P.O.Box 109307, Nansana Business Center Building, Hoima Road-Nansana.

Together, we can make a difference.

Leveraging Social Media to Combat Malnutrition in Uganda

- As we continue to embrace technology in the fight against malnutrition in Uganda, social media platforms have become powerful tools for awareness, education, and community engagement.
- Through strategic use of these platforms, we can effectively share vital information about nutrition, empower local communities with the knowledge to make informed dietary choices, and foster collaboration between government bodies, NGOs, and individuals.

With gratitude,
Atusiimire Precious
Assistant administrator
Enhance Health Education Research Foundation
(EHERF-Uganda).

IT Officer, Jerimiah!

As the IT Officer at EHERF-Uganda, I've seen firsthand how digital platforms are transforming our fight against child malnutrition. Through social media, we raise awareness, educate communities, and mobilize global support. Technology isn't just a tool – it's a force multiplier for impact, connection, and sustainable change.

“Let's harness the power of technology to save lives and create lasting change, together”.
